{First Name},

ViewTech continues to serve our customers. We are here for our customers that were able to remain open during the pandemic. We look forward to again working with our customers that had to close up shop temporarily. We have new and demo borescopes in stock and ready to ship.

March Sales Strong for ViewTech Borescopes

With most industries being forced to halt business, video borescopes are required daily for several essential inspections. Sales of ViewTech Borescopes VJ-3 mechanical articulating video borescope continued strong during the month of March. ViewTech highlights the addition of two of their newest clients who added the VJ-3 video borescope to their inspection tool kit: [Read More](#)

Duncan Aviation Makes Masks and Gowns for Front Line Workers Amid COVID-19 Pandemic

In late March, Duncan Aviation had begun social distancing at work to prevent potential spread of COVID-19 and began looking to acquire face masks for use by team members when they absolutely had to work together in close quarters, like an aircraft flight deck, for a short period of time. It became obvious that mask supplies were depleted and that health care workers and those working directly with the public in service roles didn't have enough masks to meet their anticipated needs.

Texas' Oil and Gas Regulators Aren't Ready to Cut Production Yet

Facing a steep drop in oil demand with much of the world staying home to practice social distancing, more than 55 energy executives, analysts and critics appeared one after another Tuesday at a video meeting of the Texas agency that regulates the oil and gas industry to weigh in on a request that the state's oil production be cut.

America's Largest Municipal Utility Invests in Move from Coal to Hydrogen Power

The Los Angeles Department of Water and Power (LADWP), the largest municipal utility in the nation, is leading a \$1.9 billion effort to develop the world's first utility-scale hydrogen power plant. The city is one of more than 150 across the country that have committed to 100 percent renewable power by 2050.

General Motors and Ford are Now Making Respirators

General Motors has begun mass production of the Ventec Life Systems V+Pro critical care ventilator under contract to the US Department of Health and Human Services. In less than a month, Ventec, GM's supply chain and its manufacturing, logistics, legal and talent acquisition teams were able to deliver a 30,000-unit order from the US government.
