INDUSTRY NEWS

Four New Products for Weld Inspection

Weld inspections allow for various characteristics of the weld to be evaluated to ensure its quality, reliability and suitability for a particular application. Many of the modern conveniences we rely on every day, from kitchen gadgets to the vehicles that grant us safe travel, have welds that have been inspected for our safety. There are a multitude of tools and devices that facilitate weld inspections, with dozens of new products released every year.

Hidden Waviness: When Measuring Roughness Cannot Solve Quality Challenges

Specifications for surface texture frequently focus on "roughness" - the finer structures in the texture - often to the exclusion of "waviness" - the larger structure of the texture. Unfortunately, problems related to sealing, vibration, noise, wear, etc., are regularly caused by issues hidden in the waviness domain, which cannot be captured by common roughness specifications.

Louisiana - Oil and Gas Hotbed - Seeks 'Net Zero' Greenhouse Gas Emissions by 2050

Louisiana, one of the major producers of oil and gas in the U.S., has set a target of reaching "net zero" greenhouse gas emissions by 2050, according to an executive order issued by Democratic Governor John Bel Edwards on Wednesday, seeking to limit the impact of climate change in a state especially vulnerable to its effects.
