

BORESCOPE NEWS

2023 Fall Exhibition Schedule

ViewTech Borescopes has a busy travel schedule ahead as they begin their fall exhibition schedule. With 6 states, 9 conferences, and thousands of attendees expected - the team at ViewTech is ready to hit the road with the VJ-3 and VJ-4 video borescopes.

If you're looking to attend any of the events listed below, we have limited free passes available for select dates. [Contact us](#) regarding the event you are interested in attending.

FABTECH

September 11-14
BOOTH B37057

North America's largest metal forming, fabricating, welding and finishing event provides a convenient 'one-stop shop' venue where you can meet with world-class suppliers, see the latest industry products and developments, and find the tools to improve productivity, increase profits and discover new solutions to all of your metal forming, fabricating, welding and finishing needs.

The Battery Show North America

September 12-14
BOOTH 856

From raw materials to components, find what you need to power your next project. The Battery Show brings together more than 775 suppliers showcasing the latest solutions across the transportation, stationary, portable, and

industrial sectors.

Turbomachinery & Pump Symposia

September 26-28
BOOTH 2416

TPS is a vital industry event, offering a forum for the exchange of ideas between rotating equipment engineers and technicians worldwide.

The Utility Expo

September 26-28
BOOTH N755

The Utility Expo is the largest event for utility professionals and construction contractors in electric transmission, electric distribution, natural gas distribution, natural gas transmission, telecommunications, drinking water, wastewater, and stormwater.

NBAA BACE

October 17-19
BOOTH N4205

NBAA-BACE is the year's most significant event for the business aviation industry, bringing together business leaders, owners, operators, government officials, manufacturers, corporate aviation department personnel and many others involved in business aviation.

Process Expo

October 23-25
BOOTH 3304

Process Expo is committed to growing businesses within the food and beverage industry, and providing manufacturers and buyers the opportunity to network, view equipment updates and discover new technology and trends.

ASNT Annual Conference

October 23-25
BOOTH 909

ASNT 2023 is the best opportunity to share your research/work, hear updates on the latest NDT advances, network with colleagues, and meet new ones.

★ NOVI ★ ★ MICHIGAN ★

Automotive Testing Expo

October 24-26
BOOTH 16034

Automotive Testing Expo is the world's leading international expo for every aspect of automotive testing, development and validation technologies.

Ag Aviation Expo

December 4-6
BOOTH 546

NAAA hosts the world's largest agricultural aviation Ag Aviation Expo and trade show every December. The annual NAAA Ag Aviation Expo features seminars and forums that address current events and issues, networking opportunities, and the latest and greatest parts and services available to the industry.

PT6T-3DF VJ-4 Inspection

Feedback received from a client who demoed a VJ-4 video borescope....

"We did manage to find a little time to take a look in the over temped PT6T-3DF that we have here and were very impressed with the picture that this scope provided. I included a picture of a little bit of what we found. I was

impressed with the scope at HAI but utilizing it in a real-life engine inspection was far better."

INDUSTRY NEWS

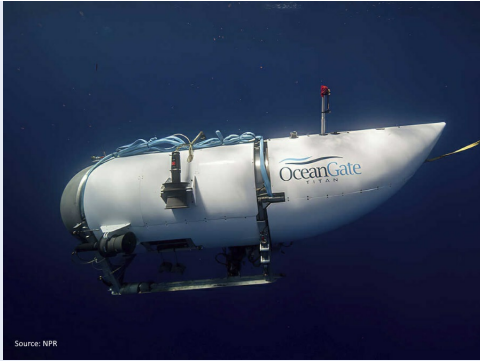

[Collins Lands \\$24 Million to Make Electric Generators for U.S. Army](#)

Collins Aerospace, an RTX business (formerly

Raytheon Technologies Corporation), was awarded a \$24 million contract for production and delivery of electric generators with containers to the United States Army Anniston Depot in support of the U.S. Army's Abrams M1A2 Main Battle Tank.

[Lack of Nondestructive Testing Alleged in Titan Implosion](#)

Court documents filed in 2018 allege OceanGate allowed the Titan to perform dives without “nondestructive testing to prove its integrity.” The filing further described that the Titan’s hull is made of carbon fiber, not metal, and was built to withstand certified pressure of 1,300 meters, but OceanGate planned to take passengers to 4,000 meters.
