

Connecting VJ-3 to Computer as a Webcam

1. First-time setup:
 - I. Insert installation CD into computer disk drive.
 - II. Navigate to CD folder.
 - i. For Windows computers, navigate into Windows_OS folder. Run Setup.exe in the Driver folder, then run Setup.exe in the ArcSoft_ShowBiz folder.
 - ii. For Mac computers, navigate into MacOSX folder and run "ezcap VideoGrabber OS X 1.6.1.dmg".

2. Borescope Setup:
 - I. Connect provided video cable into Borescope.
 - II. Connect USB plug from V.TOP video adapter to computer.
 - III. Connect red plug from borescope into yellow socket from adapter.

3. To capture videos or pictures on computer using ArcSoft ShowBiz.
 - I. Open the ArcSoft ShowBiz program on computer.
 - II. Click the "Capture" button.
 - III. In the pop-up windows, set Source to "USB2.0 VIDBOX FW".
 - IV. Live video should now be shown in the Capture Module window.
 - i. Double-click the video to toggle Fullscreen.
 - ii. Click Capture to start recording a video.
 - iii. Either press F2 or click the button with the camera icon to take a picture.

4. To share live feed from Borescope through any other program (Skype, Zoom, etc.), simply establish a connection with peer and share the video from the borescope as you would any other webcam.
