

BORESCOPE NEWS

Introducing the VJ-4 Video Borescope

The latest generation in the VJ series, the **VJ-4 video borescope** combines cutting-edge imaging technology with an intuitive user interface, striking the perfect balance between performance and design.

Navigation of the pop-up menus, image annotation, and relative measurement calculations are all facilitated using the touchscreen or industry-first mini-joysticks.

These and other features make the VJ-4 one of the most advanced borescopes on the market. There is simply no other borescope like it.

INDUSTRY NEWS

Walt Disney's Other Mouse

While Walt Disney used various commercial and business aircraft to support his many entertainment, entrepreneurial, and philanthropic projects, the one most closely associated with the man and his dreams was his beloved Grumman Gulfstream I.
