

BORESCOPE NEWS

New Client Inspection Applications

ViewTech Borescopes clients utilize our video borescopes in nearly every industry and inspection application. All versions, diameters, and lengths of ViewTech's video borescopes can also be rented for days or months at a time. If you have an new inspection, maintenance, or quality control requirement, experience the difference a ViewTech borescope can make with a no-cost demo.

Pharmaceutical, Biotechnology and Nutrition Manufacturing Company

VJ-3 2.2mm x 1.0m

Purchased borescope to inspect pulsation dampener piping during sanitary process

A grey rectangular box containing the text "2.2mm" in white, "VJ-3" in large orange letters, and "BORESCOPE" in smaller white letters at the bottom.

United States Space Launch Company

VJ-3 2.8mm x 1.0m

Purchased borescope to use during sanitary process, inspecting critical passageways and pressure vessels

A grey rectangular box containing the text "2.8mm" in white, "VJ-3" in large orange letters, and "BORESCOPE" in smaller white letters at the bottom.

Air Ambulance and Aeromedical Services Company

VJ-3 3.9mm x 1.5m

Purchased borescope to inspect PT6A-67D engines

A grey rectangular box containing the text "3.9mm" in white, "VJ-3" in large orange letters, and "BORESCOPE" in smaller white letters at the bottom.

Canadian Marine Services Company

VJ-3 6.0mm x 8.0m

Rented borescope to remove a bolt from a large ship's gearbox, preventing the ship from dry docking (and saving their client \$500k dollars)

A grey rectangular box containing the text "6.0mm" in white, "VJ-3" in large orange letters, and "BORESCOPE" in smaller white letters at the bottom.

[Rocket Lab Selected by Ball Aerospace to Power NASA's GLIDE Spacecraft](#)

Rocket Lab , a leading launch and space systems company, has been selected by Ball Aerospace to manufacture the Solar Array Panel (SAP) to power NASA's Global Lyman-Alpha Imager of Dynamic Exosphere (GLIDE) mission spacecraft planned to launch in 2025.

[Biotech Firm Puts R2D2 to Work In Lab](#)

Drug development is a time-consuming and expensive business. Notoriously, it takes over 10 years and costs around \$2 billion to bring one drug to market — and around 90% of candidate drugs fail during human trials. And the situation is getting worse. Eroom's Law (Moore's Law in reverse) is the observation that the cost of developing a new drug doubles roughly every nine years.
