

BORESCOPE NEWS

Connecting your ViewTech Borescope to a HDMI Monitor

With your ViewTech video borescope, users can quickly and easily share a live feed of inspections, maintenance, or quality control procedures. Options available include [connecting your ViewTech Borescope to a HDMI monitor](#) for viewing your borescope output on a larger screen.

Then users can also connect with the same HDMI output to a USB converter so that they can view and capture images using a computer software program, such as OBS.

Finally, once you are connected via OBS, users can also explore broadcasting their screen with video conferencing software similar to Zoom or Microsoft Teams.

ViewTech borescope users without a HDMI port, contact a ViewTech representative for live streaming instructions..

INDUSTRY NEWS

[Rockwell Automation Invests More in Manufacturing Capacity](#)

Rockwell Automation Inc. is devoting more of its capital spending to boosting its manufacturing capacity by adding employees and equipment, part of an effort to resolve a large backlog brought on by supply-chain issues.

[Boeing's Starliner to Fly Crucial OFT-2 Test Flight to Space Station This Week at Long Last](#)

Following a May 11 flight readiness review,

NASA and Boeing are targeting an instantaneous launch window of May 19 at 6:54 p.m. EDT (2254 GMT) for liftoff of Starliner atop a United Launch Alliance Atlas V rocket. This will be Starliner's second attempt to rendezvous and dock with the ISS, and a critical step in NASA's certification of the Boeing spacecraft for human passengers.

[Are Counterfeit Bearings on the Rise?](#)

Counterfeits may be everywhere, but bearings are among the most counterfeited critical components in industrial and engineering applications. Relative to the profits that can be made, counterfeiting bearings is in fact cheap and simple to do. Although larger bearings are not immune to the problem, smaller bearings are perhaps easiest to counterfeit.
