

BORESCOPE NEWS

ARTICULATING VJ-4 DUAL CAMERA NOW AVAILABLE IN FOUR DIAMETERS

The popular **VJ-4 Dual Camera** video borescopes offered by ViewTech are now available in 4 different diameters!

Utilize a **2.8mm, 3.9mm, 6.0mm, or 8.0mm** and gain the advantage of picture-in-picture front and side camera views during your inspections, maintenance, and quality control requirements.

Our **VJ-4 video borescopes** are all equipped with the following features:

- 5.5" QLED Screen
- Touch Screen or Stylus Interface
- On-Screen Annotation
- Reference Measurement
- Easy Folder Organization & Storage
- Industry-First Mini-Joysticks

We are building our 2.8 Dual Camera inventory and have select units available to reserve a complimentary, no-cost demo.

Contact the team at ViewTech to reserve and trial the newest video borescope today!

INDUSTRY NEWS

[FuelCell Energy and Toyota Unveil World's First Tri-Gen System](#)

FuelCell Energy and Toyota Motor North America have announced the completion of the world's first Tri-gen system at Toyota's Port of Long Beach operations. This system produces renewable electricity, hydrogen, and water from recycled biogas. Tri-gen will enable Toyota Logistic Services (TLS) Long Beach to become the company's first port vehicle processing facility globally, powered by onsite-generated, 100% renewable energy.

[Wisconsin Will House an Energy Storage Facility That's The First of its Kind in the US](#)

A first of its kind energy storage system will be coming to Wisconsin in the next few years, and could serve as a blueprint for wide-scale deployment across the country. Alliant Energy on Friday announced it received a \$30 million federal grant for a 200-megawatt-hour storage system in Columbia County.
