

**GUIDE TUBE  
AVAILABLE OPTIONS**

VJ-3

ALL NEW

VJ-4

**PRATT & WHITNEY**

Pratt & Whitney guide tubes are used to inspect engines with the VJ-3 or VJ-4 3.9mm borescopes.

**SYNFLEX**

Synflex Semi-flexible tubing can be cut to any length and used to form custom application tubes for those "hard to reach" applications. Works with VJ-3 or VJ-4 borescopes.

**RIGIDIZERS/GRABBERS**

Rigidizers/grabbers are used to keep the insertion tube elevated over open spaces, in order to reach your target inspection area. Works with VJ-3 or VJ-4 borescopes.

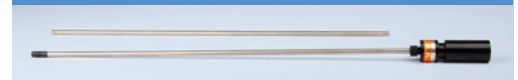

**PWC 200 - GUIDE TUBE**

**SYNFLEX 1/4" FOR  
2.2mm & 2.8mm BORESCOPES**

**RIGIDIZER/GRABBER FOR  
6.0mm BORESCOPES**

**PWC 400 - GUIDE TUBE**

**SYNFLEX 3/8" FOR  
3.9mm BORESCOPES**

**RIGIDIZER/GRABBER FOR  
3.9mm BORESCOPES**

**PWC 600 - GUIDE TUBE**
